## Day to Day Phone Card

### Information About the Service

#### Description of Service

Day to Day Phone Card is a pre-paid call service for making calls overseas and within Australia. The phone card allows you to make calls which you have paid in advance of time by buying the card online.

Calls are able to be made from landlines (including home phones, office phones and public pay phones) and mobile phones.

The phone card can be purchased online with a recharge option available by calling our customer service number or online from [www.aussiephonecards.com.au](http://www.aussiephonecards.com.au)

After you order your card you will receive your phone card details via email. You will receive dialling instructions, access numbers and a PIN number. To use the phone card:

(1) Dial the local access number in the area that you are in from your mobile or landline (the local access numbers are printed on the email that we send you after you order)

(2) You will then hear a computerized voice that will ask you for your PIN (printed on the email). Punch the PIN in on your telephone keypad and the voice will then tell you how much money you have in your phone card account

(3) Next, dial the Destination number

For overseas calls, dial:

0011 + country code + area code + local number + #

For STD calls, dial:

area code + local number + #

The computerized voice will then tell you how many minutes you have for that call based on the money you have in your phone card account and the rate to the destination that you are calling.

(4) When you are finished calling, just hang up, or press ## to make another call

#### Minimum Term Applicable

This phone card expires 6 months from first use or last recharge.

#### Bundling Arrangement

You will need a landline, public phone or mobile phone to use the phone card.
